(c) The impact of unauthorised constructions on pollution, environmental disturbances and other risks depends upon the specific situation of towns and cities, historical, geographical and other factors. Therefore, it is not possible to comment on the extent to which citizens of such towns/cities are affected in general. However, construction of buildings in violation of the Building rules is likely to lead to problems such as absence of open spaces and green covers, lack of parking facilities, traffic congestion, fire hazards, pollution, etc., which again will depend upon the specific situations of cities and towns.

(d) To ensure planned development of urban and rural areas (metropolitan cities, in particular) the Constitution (74th) Amendment Act, 1992 prescribes the constitution of District and Metropolitan Planning Committees. The State Government have been advised to constitute such committee as early as possible.
